

KEY EXPERTISE

Java Javascript MERN Stack PostgreSQL MySQL REST API Development

EDUCATION

MIT Academy of Engineering, Pune B.Tech. - Computer Engineering CGPA: 8.02 / 10	2023 - 2027
Government Polytechnic Awsari(khurd), Pune Diploma Diploma - Information Technology - Information Technology MSBTE Percentage: 91.75 / 100	2024
Trimuti Vidyalaya Tinhewadi , Rajgurunagar, Pune 10 th MSBSHSE Percentage: 97.60 / 100	2021

INTERNSHIPS

BMC Software IT Product & Services Software Developer Intern	08 Jan, 2026 - Present
Key Skills: JSON & Data Transformation Scala JSLT REST API Development	
Developing and integrating REST APIs for compiling and executing JSLT transformations within the enterprise backend environment.	
Implementing a compile-and-try pipeline to validate JSLT scripts, enabling structured testing using dummy datasets before deployment.	
Designing mechanisms to capture detailed compilation errors, including line numbers and error descriptions, to improve debugging efficiency.	
Integrating APIs with the existing company codebase and architecture, ensuring compatibility with internal services and repository standards.	

PROJECTS

Evidya Mentor: prof. Kavitha S. Nair Team Size: 4 Key Skills: React.js Node.js Express.js REST API Postgresql Project Link: https://github.com/disha-satpute/EVidya Developed a full-stack web application that enables students to manage and showcase academic and extracurricular achievements while allowing faculty members to verify submissions. Designed and implemented a PostgreSQL relational database to manage student profiles, certificates, activities, projects, and publications. Implemented a verification workflow where faculty can approve or reject student submissions and assign achievement points	15 Jan, 2026 - 03 Apr, 2026
ScholarHub Mentor: Ms.Prajakta Dashrath Team Size: 2 Key Skills: React NodeJS PostgreSQL Tailwind CSS Express.js Bootstrap HTML5 Javascript Project Link: https://github.com/disha-satpute/ScholarHub A single platform for obtaining relevant information of Various types of Scholarship (govt. , private , NGO based , fellowships etc) , it gives only essential information about scholarships like eligibility criteria, how to apply , amount and most of important is deadline.	04 Sep, 2024 - 31 Dec, 2024
Grievance Redressal System Mentor: prof. Priyanka Ghode Team Size: 4 Key Skills: PHP MySQL Javascript HTML5 SMTP Project Link: https://github.com/disha-satpute/GRS • Creating an online Grievance platform involves a multifaceted approach to design, development, and implementation. • The project encompasses various crucial components, including user authentication, Profile Creation and management, track applications, manage complaints, email notifications for admin ,intuitive user interfaces.	13 Feb, 2022 - 30 Nov, 2023

PUBLICATIONS / RESEARCH / WHITE PAPERS

Grievance Redressal System (GRS)

04 Apr, 2024

Review Paper | International Journal of Novel Research and Development | **Mentor:** prof. Priyanka Ghode | **No. of Authors:** 4

Key Skills: Technical Skills Case Study & Real-World Applications Article Writing

This college-sponsored project facilitates the resolution of student issues efficiently. Through this system, students can easily file complaints, which are then stored on the institute's server. The institute promptly addresses these complaints, ensuring quick resolution. This grievance management system streamlines processes, resolving student concerns faster than traditional methods. Additionally, it provides the institute with immediate complaint notifications.

ASSESSMENTS / CERTIFICATIONS

Linux

Aggregate: 91.67 / 100

Key Skills: Linux

Focus on learning basic commands, managing files and users, and controlling processes. Practice writing simple scripts to automate tasks. Understand how to install software, set up networks, and keep the system secure. Learn about web servers, databases, and firewalls. Strong basics will help pass the exam and use Linux in real life.

ReactJS

Key Skills: ReactJS

focus on learning the basics of React, including components, props, and state management. Practice building interactive user interfaces using JSX and hooks. Understand how to manage data flow with props and context API. Learn about routing, API integration, and handling user inputs. Get hands-on experience with project development and debugging. A strong foundation in React will help you build modern web applications efficiently.

Android Development

Key Skills: Android JAVA project management

The course typically covers UI design, activity lifecycle, databases (SQLite, Firebase), API integration, and app deployment on the Google Play Store.

Spring Boot and Angular-React Stack -DevOps Tools and Capstone Project

Key Skills: Spring Boot AngularJS DevOps ReactJS

This course typically covers REST APIs, microservices architecture, authentication, database integration (MySQL, PostgreSQL, MongoDB), and deployment strategies. Additionally, it includes DevOps tools like Docker, Kubernetes, Jenkins, and CI/CD pipelines to automate development and deployment workflows.
